

NASA INDIA

A PLATFORM TO INTERACT & SHARE KNOWLEDGE

INTRODUCTION

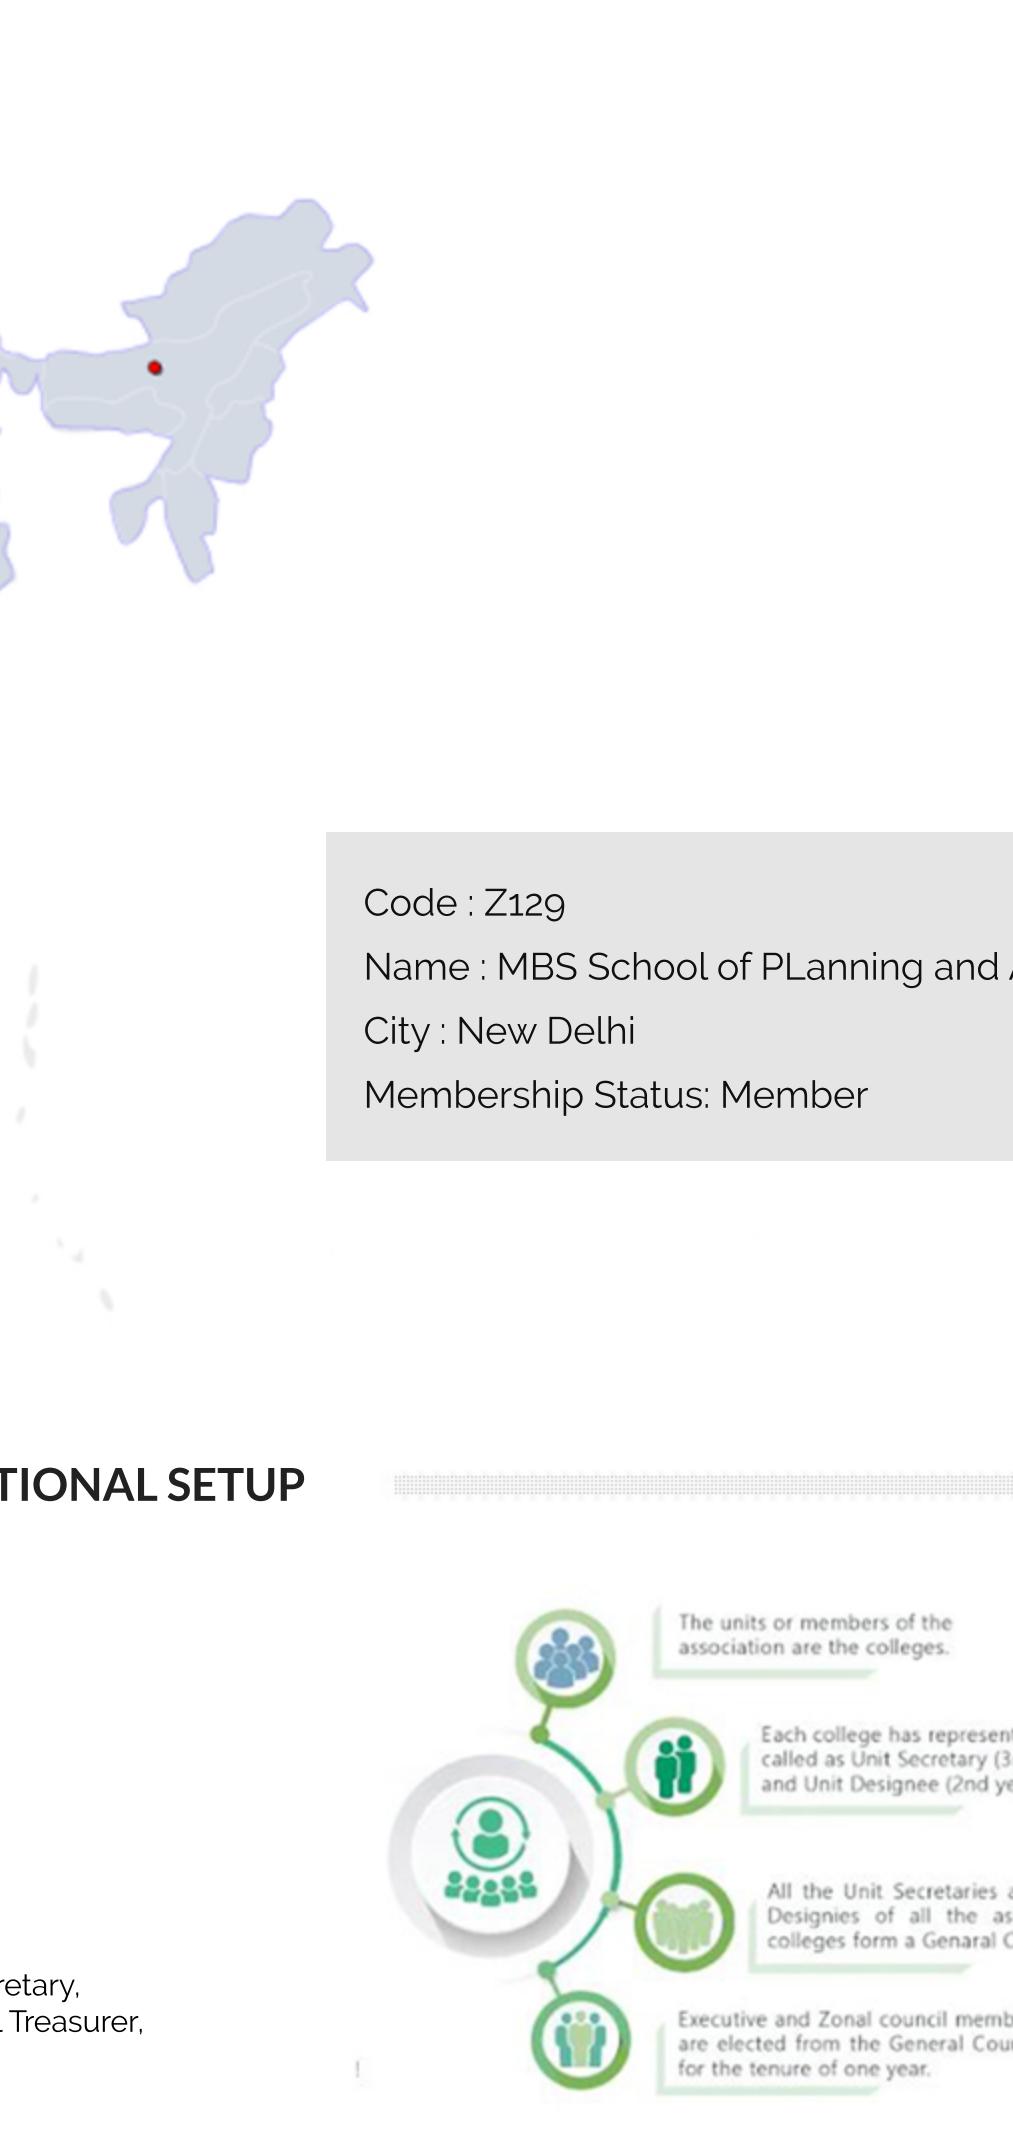

The National Association of Students of Architecture (NASA India) is one of the largest Architectural Student Organizations in the world with student participants from more than three hundred colleges from all over India and countries around the world.

The main objective of NASA India is to create a platform for architectural students to learn and interact, engage them directly and indirectly through both online and offline platforms.

ABOUT US

A few among the values that guide and build this organisation.

The National Association of Students of Architecture (NASA India) is one of the largest Architectural Student Organizations in the world with student participants from more than two hundred colleges all over India and countries around the world. The main objective of NASA India is to create a platform for architecture students to learn and interact, engage them directly and indirectly through both online and offline platforms. NASA India conducts events, conventions, seminars, workshops, design competitions & trophies and many other activities.

At NASA India we believe that us architects can come together, learn and create a huge positive impact on the world, and we strive for the same through our activities. Millions of students have gone through the NASA India experience in its rich history since the year when it was founded in 1953. Today NASA India continues not just providing learning and experience to students from India and across the world, but also creating a connection and voice for the architecture student community.

With a common aim and objective to provide the students a platform for interaction, a platform where students from varied cultural backgrounds would learn and share their knowledge. NASA India now includes students of over 240 colleges from across the country, divided geographically into six zones. NASA India is a non-profit and non-political association registered under the Society's Act 1960 vide no. 24786 as applicable to the National Capital Territory of New Delhi, India. NASA India has its headquarters currently located at the Department of Architecture, School of Planning and Architecture, New Delhi.

MISSION AND VISION

BEING THE VOICE

Of all architecture students in the Nation. To address issues and get solutions

CREATING A PLATFORM

For students from across the country to share critical ideas about Architecture and showcase their skills

BRIDGING THE GAP

Between students and professionals. For the overall benefit of the Indian architecture student fraternity as a whole.

SUSTAINING

The works the students do through a democratically elected council who ensure that the hard work gets results throughout the year

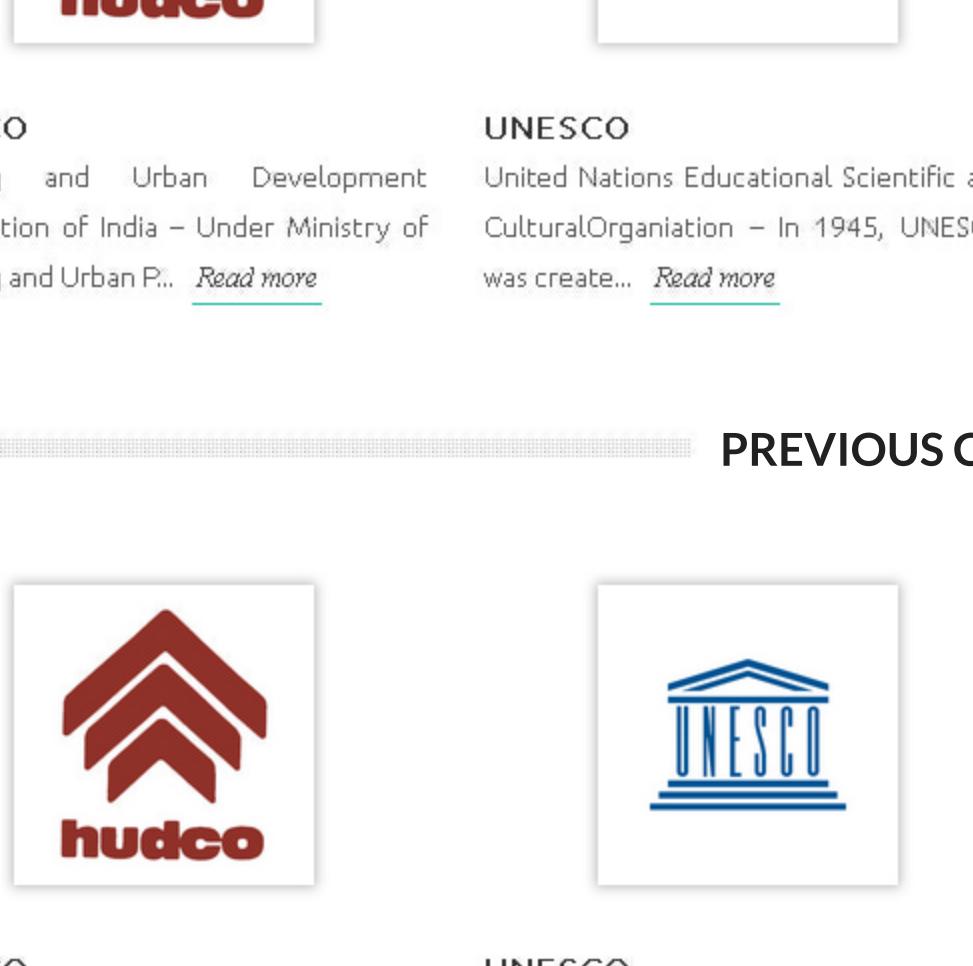

MAKING A DIFFERENCE

By collectively volunteering to assist various government and non-government organizations in their programs like relief work, rehabilitation, research and documentation.

GROWING

From 7 colleges in 1957 to 260 and counting today. It can only get better!

ORGANISATIONAL SETUP

HISTORY

The National Association of Architecture Students, India traces its history back to the early 1950s when the colleges of Architecture in India came together to form a movement against the diploma system in architecture and demanded a degree be awarded to prospective students.

The National Association of Architecture Students, India traces its history back to the early 1950s when the colleges of Architecture in India came together to form a movement against the diploma system in architecture and demanded a degree be awarded to prospective students.

59th

ANNUAL NASA CONVENTION JAN 2018

Dc School of Architecture, Vagamon

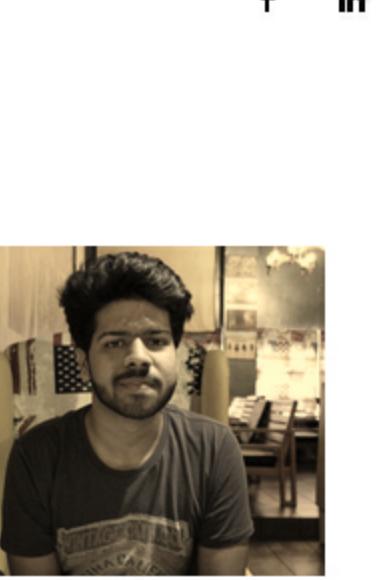

58th

ANNUAL NASA CONVENTION FEB 2017

Poornima University Jaipur

EVENTS

ANNUAL NASA CONVENTION:

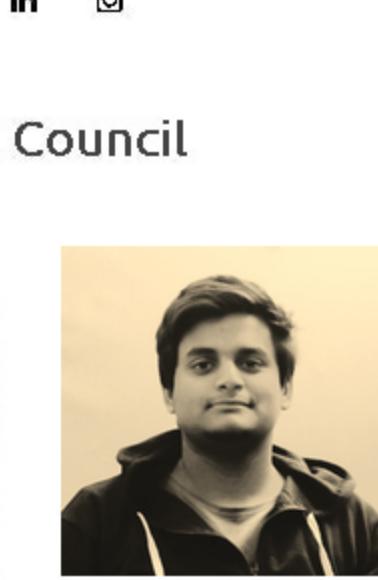

It is a common platform for qualified colleges to come under one roof to perform/compete/interact with various other such colleges across the country under one name, NASA INDIA. It also provides students, a beautiful chance to interact with eminent personnel of the architecture fraternity. ANC as a confederation also acts as a metamorphosis which effectuates physical as well as the mental growth of architectural students.

ZONAL NASA CONVENTION:

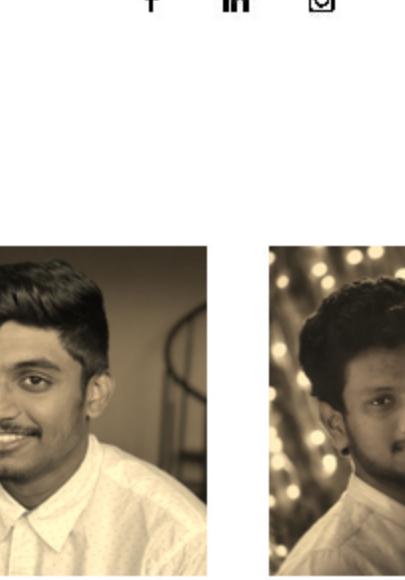

ZONASA or zonal NASA convention is the miniature form of ANC, which promotes cross-college interaction by teaming up students of different colleges as a unit at a zonal level. As the name suggests, the notion behind hosting the zonal convention is to provide exposure to the local talent and staging them, on a broader platform. This convention also encourages extra-curricular activities and gives students a humongous podium to showcase their talent outside their college.

PANEL DISCUSSION:

It is a consummate podium which empowers the younger lot from the Architecture fraternity to interact and share ideas through discussions with eminent architects on specified topics related to some debatable issues in Architecture.

TALK SERIES:

It is an open event in which astral members from the Architecture consortium indulge in a thoughtful conversation with the students which acts as a driving force for the confederation, in creating awareness regarding substantial topics and thesis presentation by students.

TROPHIES

Trophies are one of the integral elements of NASA India which aims at touching most of the architectural fields so as to provide students a versatile platform to come forward, participate and learn various aspects in different fields of architecture.
